

The GKL Group as sole UK contractor & distributor, is delighted to introduce the SiDEGRADER® - a revolutionary productivity enhancing grading system.

- Fixed price rate / m² for footpath and verge grading
- Accurate grade first-time to within 6 / 7mm
- Avoid costs of re-trimming
- Reduce the need for additional tarmac, concrete and other surfaces - resulting in labour and time efficiency gains
- No requirement for setting out - grade is controlled from within the cab
- Supported by a UK national service capability

Additional uses

- Highway and road shoulder grading
- Thickened edges and trench reinstatement
- Highway verges and planter strips
- Swales and ditches
- Driveways and crossovers

GKL working in partnership with Sidewalk Grading Systems Inc.

SIDE GRADER

SiDE GRADER®

4 times faster, 50% cheaper - increased productivity coupled with reduction of job cost

Excavator removes surplus and loosens material

- Hard uneven formation is no longer a problem
- Ground level does not have to be reduced to allow for setting out pins - reduced setting out and surveying costs
- The depth of the grading and excavation is guided by heavy duty wheels travelling directly along the top of the kerb

The SiDEGRADER® reduces the preparation costs of footpaths, cycle ways and verges by at least 50% with a 200% increase in productivity

- An accurate finished level to within 6 / 7mm in one operation
- Reduction in additional tarmac, concrete etc. for finished surface
- Manoeuvres around services and utilities effortlessly
- Works from the road - an advantage in bad weather

The SiDEGRADER® is the only tool in the market that can provide a grade accurate enough after one pass to apply finish surfacing

Over 1.2 million meters graded!

“Never before has my company been so efficient in placing forms and pouring sidewalk. The grade has always been my biggest problem and now using the SiDE GRADER®, it is nearly perfect. We can set the forms on the grade”.

Don Backstrom, Owner
Backstrom Curb & Sidewalk, Inc.

Fold it up and move it to your next job...

- Easy to use
- Easy to transport
- Mobility – folds in minutes
